

Printing Instructions for the Stormwater Consequences Board Game:

- If possible, print from adobe reader or acrobat
- Select the poster option in the “page sizing and handling” section
- Only print the first page (game board) this way.
- Print the second page (game pieces) on 11 ½ by 17 paper or smaller

Assembly: cut off white border of game board and tape or paste the 4 game board papers together. Mount on cardboard. Optional: prefold and score the cardboard with an exacto knife so that you can fold it up into an 8 1/2 x 11 size board. Cut out each individual game piece (can just be squares, no need to cut out the circles), cards, and water droplets. Optional: laminate these cutout pieces for longevity/ multiple uses.

Please contact the CWEP stormwater education specialist at cwep@tjcog.org or 919-558-9341 if you have any printing or assembly issues. We may be able to provide an assembled game for you if printing is not possible!
